

# Take Away Bags

HDPE Polythene Bags

Our HDPE Polythene bags are the perfect branding tool to promote your Restaurant, Store or any Promotional Activity.

Our machine made HDPE Polythene carrier bags range in weight from 30mu to 90mu. HDPE Polythene material can be pantone matched in colour or use a standard white base colour, Frosted finish is also a popular finish for our HDPE shopping polythene bags. The bags can also be printed with a 100% coverage. Although the HDPE Polythene film is from a virgin polymer, we are able to add an EPI additive to increase its biodegradability

The HDPE Polythene carrier bags are machine made in our Far East Operation, and can have a die cut, folded or flexi loop handle.

Industry sectors which use our machine made HDPE carrier bags include the retail sector and fashion industry, food and drink industry (such as coffee shops, sandwich bars and restaurants).

### What is a Carbon Foot Print?

A carbon footprint is "the total set of greenhouse gas (GHG) emissions caused by an organization, event, product or person." Greenhouse gases can be emitted through transport, land clearance, and the production and consumption of food, fuels, manufactured goods, materials, wood, roads, buildings, and services. Out of all packaging materials available in the global market, **HDPE has the lowest carbon footprint.**

### Final Result shows KG/CO2 Equivalency

From Oil to Delivery = Carbon Footprint 12.8g / Kg  
Average Bag Weight 8.12g = **0.0128 total carbon footprint per bag.**

**The minimum order is from just 5000pcs and the lead-time 10/12 weeks from approved artwork.**
